**Applies to contract the Last Resort Tariff (LRT) for natural gas temporarily applicable to residents' associations** under the provisions of Royal Decree-Law 18/2022, of 18 October, and **makes a DECLARATION OF RESPONSIBILITY of compliance with the requirements established in Article 2 of the aforementioned Royal Decree-Law 18/2022**, including:

- The requirement to be up-to-date with the payment of all economic obligations contracted with its current supplier, excluding any amounts subject to claim or dispute.

Regarding the installation of individual meters/consumption allocators and the application of a unit cost calculated according to the tariff applied for domestic hot water and heating (check one of the three options):

- It already has these elements and the cost is being calculated as indicated in Royal Decree 18/2022.
- The residents' association undertakes to have them installed by 30/09/2023 and to calculate the cost as indicated in Royal Decree 18/2022, regarding which the Board of Homeowners' approval for carrying out the installation is attached.
- The residents' association is exempt from this obligation due to technical infeasibility, according to the provisions of Royal Decree 736/2020; the infeasibility report is attached.

Additionally:

- The installation has been carried out within the allotted time and the energy efficiency inspection has been carried out with a positive result, in accordance with Royal Decree 1027/2007, the relevant report being attached.
- Only in the case of access tariff RL.9, or higher: The General Directorate for Energy Policy and Mines' authorisation to contract this tariff has been obtained and is attached.
