The Last Resource Tariff (LRT) for natural gas is reviewed via the resolution of the Directorate General of Energy and Mining Policy. The fixed or variable terms shall be updated when there are any changes to the fixed or variable charges and tolls for access to the system or changes to the loss coefficients in force. The variable term shall be updated on a quarterly basis, from the 1st of January, April, July and October of each year, whenever the variation upwards or downwards to the cost of the raw material exceeds 2%.
