Any variations to the regulated components that are applicable and new ones that may appear, shall be transferred to the customer both upwards and downwards (Accordingly, the consumption profile considered shall be P1=33% and P2=67%). Any other charges made by the distribution company such as reactive energy, lease of metering equipment, rights, etc. shall also be transferred to the customer.

Likewise, the power terms and power units may be updated on 1 January each year, in accordance with the real value of the CPI (Last General Inter-Annual National Consumer Price Index published officially at the time of the update).

Siempre Ganas (All Benefits) Discount: 1% discount on all the power consumed, for each 1% that the consumption during off-peak hours exceeds 50% of the total. This discount shall be calculated and rounded off without decimal places and independently for each bill.

Schedule: The time periods correspond at all times with those of your access tariff. At present, off-peak hours (P2) are considered from 22h to 12h during winter time and from 23h to 13h during summer time, the rest are considered peak hours (P1).

This offer is conditional upon the concession of the 2.0DHA or 2.1DHA access tariff by the distribution company. Otherwise, Endesa reserves the right not to activate this contract or to activate it maintaining the previous technical conditions (without Siempre Ganas discount, being named for your Tempo 24h identification) and to ask for access at a later date, adjusting the technical conditions when they are granted.

For billing on paper, the periodicity will be bimonthly. For electronic invoicing the customer can choose between monthly and bimonthly (by default monthly, unless the supply was already in Endesa, in which case the previous periodicity will be respected). The periodicity will always be monthly for invoicing by maximeter.
